Information	[Type= discrete] [Format=numeric] [Range= 1-2] [Missing=*]
Statistics [NW/ W]	[Valid=13336 / 13488966.055] [Invalid=0 / 0]
Universe	Every person who had stayed in the households in selected dwelling units at least four nights a week in the four weeks prior to the interview.
Literal question	Is a male or a female?
Notes	This question was asked for all household members, to determine their gender. Enumerators were instructed not to assume the gender of household members by just looking at people's names or physical appearances. In this instance, they had to ask the respondent the gender of each member of the household without any assumptions.

Q13Age: Age

Statistics [NW/ W]	[Valid=13336 / 13488966.055] [Invalid=0 / 0]
Universe	Every person who had stayed in the households in selected dwelling units at least four nights a week in the four weeks prior to the interview.
Literal question	What is’s date of birth and age in completed years?
Notes	This is a derived variable indicating the age of the household member. Age of the household member was derived from question 1.4 of the questionnaire. This question was asked for each member of the household. The instruction was to write the age in completed years to the nearest whole numbers and not in words. Thus, if a person was two years and six months, the instruction was to write the two completed years. For children aged less than a year, the instruction was to write 000.

Q14Population: Population group

Information	[Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]
Statistics [NW/ W]	[Valid=13336 / 13488966.055] [Invalid=0 / 0]
Universe	Every person who had stayed in the households in selected dwelling units at least four nights a week in the four weeks prior to the interview.
Literal question	What population group does belong to?
Notes	This question was asked to determine the population group of persons from the selected dwelling units. The respondent had to answer for each member and the enumerator was not to make any assumptions. The enumerator was also instructed not to come to any conclusions, which may be influenced by his observation or using people’s names during the interview. This question may seem very sensitive to some respondents especially in this post apartheid era, but it is important to find out the composition of the South African population.

Literal question In the last week.... Did you work for a wage, salary, commission or any payment in kind (including paid domestic work), even if it was for only one hour?

Notes This question is applicable to all children aged 7 – 17 years , regarding their involvement in economic activities in the seven days prior to the interview. The instruction to enumerators was that they should consider those activities that lasted for at least an hour within the last seven days. In order to be certain that the categories had been answered, there should either be a 'Yes' or 'No' answer to all of them. Most importantly, if there was a 'Yes' to any part of this question, there should be a record of number of hours to the subsequent questions (a2, b2 & c2). If all the categories were 'No', there should be no record of number of hours. Respondents who answer "Yes" to 3.1(a1), or 3.1(b1), or 3.1(c1) must provide the number of hours at which that activity was performed to 3.1(a2), or 3.1(b2), or 3.1(c2)

Literal question	If yes, for how many hours?			
Notes	This question is applicable to all children aged 7 – 17 years , regarding their involvement in economic activities in the seven days prior to the interview. The instruction to enumerators was that they should consider those activities that lasted for at least an hour within the last seven days. In order to be certain that the categories had been answered, there should either be a 'Yes' or 'No' answer to all of them. Most importantly, if there was a 'Yes' to any part of this question, there should be a record of number of hours to the subsequent questions (a2, b2 & c2). If all the categories were 'No', there should be no record of number of hours. Respondents who answer “Yes” to 3.1(a1), or 3.1(b1), or 3.1(c1) must provide the number of hours at which that activity was performed to 3.1(a2), or 3.1(b2), or 3.1(c2)
